

911 S 2.4 Targa (1972)

Edition 50 Years Porsche Design

911 S 2.4 Targa made in 1972

Another highlight of the 50th Porsche Design anniversary is the complete makeover of the one-of-a-kind 1972 edition 911 S 2.4 Targa by Porsche Classic. The vehicle has been redesigned to the visual standards of the 911 Edition 50 Years Porsche Design.

The configurations were designed in close cooperation with Porsche Classic to preserve the unique character of this classic and meld it with the design philosophy of F. A. Porsche.

In the first step of the remodel, the vehicle was completely taken apart and received a new coat of paint. During reassembly, the interior and exterior were adjusted to align with the updated 911 edition. The engine and chassis were upgraded to include the complete S-edition design.

The classic 911 S 2.4 Targa received the same exterior paint as the 50 Years Porsche Design 911 edition: black with platinum accents (silk gloss). Interior highlights include Sport-Tex fabric with a

checkered pattern in black/Cool Grey and the “Edition 50 Years Porsche Design” emblem on the dashboard. Additionally, the headrests as well as the owner’s manual and custom-made tool kit are embossed with the “Edition 50 Years Porsche Design” logo.

At a Glance
